How to create Scouting recruiting flyers in just 5 minutes

The Scouting America [Brand Center](#) has long been No. 1 on our list of tools for marketing your unit. You can use it to prepare authorized logos, photos, and [videos](#) for sharing online.

There is still tremendous value in real-life, in-person, face-to-face recruiting events, and in those situations, you can't go wrong with a good flyer.

That's where the Brand Center's new #AdventureOn! DIY templates could come in handy. They are intended to simplify the process of creating custom recruiting assets for Cub Scouts and Scouts BSA.

You can use them to create old-fashioned flyers and posters (along with social media images, web banners, email headers, and more). And, best of all, you can create your assets in just a few minutes.

You can watch the [video](#) for step-by-step instructions or [click here for a PDF of the instructions.](#)

Get more information about creating recruiting flyers using Scouting Americas' Brand Center [HERE](#)
